Professional Summary

Full-Stack Software Developer with 3+ years shipping production web applications in React, Next.js, TypeScript, and Tailwind CSS. Comfortable moving across the stack: building polished, Figma-to-production UIs, designing REST APIs, and working with relational databases (SQL/PostgreSQL). High-agency, ownership-driven, and used to making architectural calls in small teams.

Technical Skills

- **Frontend:** TypeScript, JavaScript (ES6+), React, Next.js, Tailwind CSS, HTML5, CSS3, Redux, Context API, Material UI, Chakra UI
- **Backend & Data:** Node.js (basic), REST APIs, JWT Authentication, SQL, PostgreSQL fundamentals; exposure to Prisma ORM patterns via Django/ORM coursework
- **Workflow:** GitHub (branching, PRs, code reviews), Figma-to-code, Jira, Notion, Slack
- **Build & CI/CD:** Webpack, Vite, Babel, npm, yarn, GitHub Actions
- **Testing:** Jest, React Testing Library, Cypress, Selenium
- **Engineering:** Component architecture, responsive design, performance optimization, cross-device compatibility, accessibility (WCAG)

Professional Experience

IT and Application Design Assistant

September 2025 – December 2025

International Canadian Education Robotics Program (ICE)

Toronto, ON

- Built and maintained a responsive program website using React, TypeScript, and Tailwind-style utility CSS, ensuring consistent rendering across mobile and desktop.
- Delivered hands-on coding workshops on JavaScript and React fundamentals to student cohorts.

Frontend Developer

September 2022 – April 2024

Numeric Mind

Kathmandu, Nepal

- Owned end-to-end development of Role-Based Access Control interfaces (Admin, Analyst, Data Entry) in React and TypeScript, integrating REST APIs against a relational database with strict server-side permissions.
- Translated Figma designs into production-quality React components and reusable UI libraries (audit log viewers, dataset listings, dynamic forms), accelerating feature delivery across 4+ modules.
- Authored unit and integration tests with Jest, React Testing Library, and Selenium, reducing regression defects reaching QA by an estimated 40%.
- Drove peer code reviews on GitHub, Agile ceremonies, and Sentry-based production monitoring, cutting frontend issue resolution time by 30%.

Frontend Developer

May 2021 – September 2022

Share Hub

Kathmandu, Nepal

- Built real-time financial dashboards (Portfolio, Watchlist, Alerts, Orders) for 100K+ investors using React, TypeScript, Redux, and Tailwind CSS, integrating Highcharts and TradingView for advanced charting.
- Streamed live market data via REST APIs and WebSockets with sub-second latency across 250K+ monthly sessions, designing scalable client-side state and data flows.
- Improved performance of data-intensive views by up to 25% through code splitting, lazy loading, React memoization, and list virtualization across mobile and desktop.
- Implemented JWT authentication with route guards, Axios interceptors, and silent token refresh, securing role- and subscription-based access in production.

React Developer Intern

January 2021 – April 2021

Sarobar Technology Pvt. Ltd.

Kathmandu, Nepal

- Translated Figma designs into responsive React components and shipped Login and Vendor Sign-Up flows with client-side form validation against secured REST endpoints.

Academic & Selected Projects

- **Full-Stack Django + PostgreSQL Web App** (Lambton College): Designed relational schemas, modeled domain entities via Django ORM, built server-rendered views with Jinja-style templating, and deployed end-to-end CRUD flows — transferable patterns to Prisma + PostgreSQL stacks.

Education

Postgraduate Certificate, Full Stack Software Development

2024 – 2025

Lambton College

Toronto, ON

Bachelor of Science, Computer Science

2017 – 2022

Tribhuvan University

Kathmandu, Nepal
